COMMENTS FROM GROUP PRESIDENT AND CEO

Continued focus on long-term profitability

During the second quarter of 2024, we at LEAX have continued our work to adapt to the rapidly changing market, where components for electric vehicles continue to show high volatility. This has negatively impacted our net sales and operating profit during the period.

Second quarter net sales totalled SEK 542.0 million (558.6), a decrease of 3.0% compared to the same period last year. The decrease is mainly due to lower volumes in the passenger car industry, but we have also noted a general slowdown in several of our key markets in Europe. However, part of the decrease is offset by the increase in sales in South America.

The operating result for the second quarter was SEK -6.4 million (32.6), which is a significant deterioration compared to last year. This decline reflects the challenges we face, but at the same time we see opportunities to reverse this trend through continued focus on long-term profitability.

We have clear priorities to strengthen our long-term profitability. We do this by focusing on efficiency, strategic improvements and cost efficiency. Furthermore, we are committed to improving our commercial strength by strengthening our presence in existing markets and exploring new opportunities for growth. We aim to maintain a strong financial position by optimising cash flow and reducing debt. We will also continue to capitalise on our internal synergies and expertise to improve our competitiveness and create added value for our customers.

Work is progressing according to plan with overall cost savings, with the expectation of a long-term annual profit improvement of SEK 100 million.

We are confident that our strategy to adapt to changing market conditions and technological shifts will yield positive results over time. With the support of the entire organisation, we continue to work towards our long-term goals.

Roger Berggren, Group president and CEO
